

*di Hussain Majid*

Democracy was said to be a government of the people, for the people and by the people. Democracy was said to be a way to express humanity, freedom, thinking, love and peace. Democracy was said to be a system of government that stay very close to it people and brings closeness, peace and equalities among the rich and the poor. Democracy was said to be the best and perfect system of government that will provide good standard of living to humanity. It was said to be the well build form of government that makes everyone to feel at home in safety. It was said to be a form of government that enable every citizen to contribute and benefit from the government. In fact, it was said to be a form of government that everyone is part of the government.

---

When we think to democracy, we always think that it is a way of archiving freedom. We always use to think to have a freedom and to live in peace. But how can we have our freedom and also be in peace? Mean while we were been brain washed by the word called democracy. They said to themselves that they are the fathers of democracy, the people that always stand on foot to enable peace to go round with freedom to us. But it was a lie. They have a different reason inside them. They have their aims and objectives. When we take a good look around us, we will see the reason why democracy was invented right from the start. It was not invented for the people to live good and be in peace. Democracy is what destroy us, our thinking, feelings and the world we live.

Democracy was the source of our blindness. It brings a deep serious blindness to us. Now that we are blind, we can't see anymore. We only think that we have eyes but we are perfectly and totally blind. We can't see what is happening around us. We wake in pain, eat in pain, sleep in pain, bath in pain, speak in pain and also dream in pain. Every day we are in pain, in tears and surfer. We feel the pain, We live in pain and we see the pain but no one try to ask why. No one try to reason and say the fact. We all know that democracy is the cause of every single problem that is existing now in our life. And we keep fighting to have the so called democracy. This is why I call it total blindness. Democracy here, democracy there, democracy then, democracy now and democracy in future. Democracy make people to feel more superior and powerful than other people. Democracy create positions and make people kill people. Democracy makes us to see ourselves as good for nothing people. It makes the rich more rich and the poor to remain poor forever. Democracy creates secrets societies. Democracy creates more complications to humanity. It encourages more racism, tribalism and difference in religion. Democracy make us to remain as slaves forever. When people fight against slavery, it stop for some times and comes back with a different form called modern slavery through democracy.

Whenever I closed my eyes to have an image of democracy, all I see is blood. Democracy is the perfect weapon against humanity. Now we are living a life without respect, without love, without value, without peace, without good thoughts and without the abilities to manage our lives. Maybe we have to think of things that are more deep, things in democracy that did the brainwashing. Why are we so blind to see? Why are we so weak to wake up? Why are we so stupid to think? Why are we dumb to listen? Why are we so deaf to speak? Every day, we try to fight against racism, religious crisis, tribalism and other things without thinking to fight the main source of all those things. So, if we will not fight the source, how can we think to fight and win forever?
